European Lingerie Group (ELG) is a fully vertically integrated intimate apparel and lingerie group, supplying lingerie materials to all major intimate apparel brands and distributing own ready garment lingerie products through more than 5,000 points of sale in 46 countries worldwide and online. ELG includes three business segments – Lauma Fabrics, Felina International and online business Dessus-Dessous.

ELG has successfully embarked upon a growth strategy involving international M&A targets and building size, and is today a renowned and strong player in the European intimate apparel industry.

Premium branded lingerie under Conturelle and Felina brands
To become the preferred supplier of lingerie in Europe, be it fabrics and materials for ready garment production, or ready garments for customers presented in various distribution channels.

OUR MISSION
To be effective and innovative one-stop-shop for lingerie offering the very best for our customers in terms of quality, style and comfort.
Sound business model and strong cash flow

Sound business model whereas products are based on classic, never out of stock items - both in material and ready garment segment with low fashion sensitivity, have provided for sound and stable long term performance with substantial profitability margins.

Highly experienced and credible management

Highly experienced Board and management with diversity of corporate and function experience. Proven track record of successful growth management.

Manufacturing arm with blue-chip customer base

ELG is One-stop-shop manufacturer with diversified blue-chip customer base.

The company supplies all major manufacturers of intimate apparel in Europe.

Innovative European design and quality for relatively low cost.

High brand awareness and customer proximity

Established brands Felina and Conturelle with high brand awareness.

Close customer proximity through department stores and other retailers. Wide distribution network exceeding 5,000 points of sale throughout Western Europe.

Established position in Central and Eastern Europe an excellent platform for growth

ELG’s long track record, strong market position, brand awareness and network in Central and Eastern Europe support integration of new business segments geographical expansion.
Value creation through vertical integration

Deep integration of the supply chain (from fabrics to retail)

Efficient supply chain management

Integration as a response to new demands for speed to market of 6 – 10 weeks (previously up to 9 months) for all types of products (classic, flash, seasonal) and quick reaction to market demands

Efficient inventory management across the whole supply chain

High asset/capital turnover and realization of full gross margin in-house

Reduction of risk through controlling key elements of the industry value chain

Diversification of the group sales and markets

ELG has a track record of successfully expanding into new geographies through acquisitions. Acquired companies include Elastic (fine fabrics, a client) and Felina (premium lingerie, a client), facilitating the geographical expansion and vertical integration
Felina

Premium quality lingerie since 1885

Over 100 years of brand heritage and excellent product fit with loyal end customers obtaining a low degree of price sensitivity.

Well-established player in an intimate wear niche focused on premium bras, slips and other intimate wear products.

Two distinct and complimentary premium brands – Felina and Conturelle. Newest addition Senselle is a fusion collection

Recently launched a new Move by Conturelle activity line in its collection. For summer ’19 Felina also reintroduced a swimwear line.

Vertical integration. The combination of in-house large-scale fabrics and lace production by Lauma and strong end-product and distribution experience by Felina.

Close customer proximity through regional sales subsidiaries focusing on department stores as well as fashion and lingerie retailers.

Low risk, asset-light business model, due to growing core business with high share of NOS (never-out-of-stock) products.

High internal value-add from product design and collection management to two own production sites in Hungary that secures highest quality standards and short lead times.
Felina sales and distribution

Felina has long-standing international customer relationship and a well-developed lingerie distribution network covering most of the European countries and serving over 5,000 wholesale customers worldwide. Wholesale business is mainly in the CIS region.

Felina realizes approximately 75% of sales through specialized shops, fashion boutiques and department stores.

Felina mainly sells lingerie to the European market, which is the world’s largest women’s lingerie market. Germany, is the core market for Felina.

Felina has a strong international presence, generating 60% of sales outside Germany (23% Western Europe, 12% Southern Europe, 8% Eastern Europe, 5% Northern America and Asia).

In 2018, a new back-up brand *Senselle by Felina* was launched to grow the market share in Eastern Europe as well as CIS countries and target the medium price segment.
Embroidery by Lauma Fabrics
Lauma Fabrics historical success has been built on 'one-stop-shop' strategy whereas a full set of materials for ladies underwear (warp knitted fabrics, laces, narrow, embroideries, moulded cups) is offered to the customer.

Lauma Fabrics has a full production process under one roof (warping, knitting, dyeing and finishing), very rare for a European producer.

Financially sound and strong cash flow generative business.

The company has a modern dye-house, which enables beam and jet dyeing as well as includes water scouring equipment and stenters.

Convenient location for European production and historically loyal employee base.

Balanced geographical sales to CIS / Russia and Central and Western Europe with market leaders as the key customers.

Business strengths

The company, situated in Liepaja, Latvia supplies all major manufacturers of intimate apparel throughout Europe.

Lauma Fabrics balances European design and quality for a relatively low cost in comparison with old European producers.
Lauma Fabrics products

Sales by product groups 12m 2018

- 49% Elastic fabrics
- 17% Narrow bands
- 11% Laces
- 9% Warp knitted fabrics
- 7% Medical goods
- 4% Molding and SCM
- 3% Other

Fabric product portfolio

Product portfolio includes elastic knitted fabrics, rigid knitted fabrics, elastic laces, narrows and embroideries.

Lauma Fabrics also offers SCM* services where ready garments are produced under customer brands.

In addition to its core products, Lauma produces medical textile – compression bands and back supports. These products are sold under the brand Lauma Medical.
Lauma Fabrics has a strong reputation and loyal customer base built by using high quality materials, manufacturing all products in-house and reasonable product pricing.

Lauma Fabrics’s client base is diversified in terms of size and geography – the Company serves all main lingerie brands in Europe and has around 200 client accounts.

Lauma Fabrics currently produces a wide range of lace plus a variety of basic broad elastic fabrics. The majority of its production is used in intimate apparel garments, with principal markets being the CIS countries and Russia.

Sales to Western European countries are also growing steadily. More than 85% of fabrics, laces and other materials exported to more than 20 countries all over the world.

Fabrics and laces are sold and marketed by dedicated distribution teams aiming to develop a close link between materials manufactured by Lauma Fabrics and the clothing where these products are used. In combination, the Latvian and German production facilities provide wide geographic coverage.

Lauma Fabrics carries a wide range of fabrics covering all product types. These are presented to customers either at trade fairs, customer conventions or directly at the customers’ premises.
**Dessus-Dessous**, headquartered in Lunel, France, is the French leader in online sales of lingerie. The Company specializes in online sales of luxury lingerie brands including Lise Charmel, Van De Velde, Simone Pérèle, Felina, Conturelle and others.

Dessus-Dessous has been leading the French online lingerie market since 2000, and enjoys extraordinary rates of customer satisfaction and loyalty, thanks to superb customer service, reliable delivery and a constantly up-to-date selection of over 150 thousand articles from over 50 brands.

Sales of consumer goods are increasingly moving online, also in modern lingerie business. The acquisition of Dessus-Dessous is the response of ELG towards the persistent market trends.

The acquisition of Dessus-Dessous, completed in June 2018, marks ELG’s expansion to online retail segment of the lingerie market, reinforcing the Group’s strategic commitment to building a truly vertically integrated business.

There is great potential in Dessus-Dessous’s business model on its own – it is a successful, profitable and sustainable business. ELG believes the acquisition of Dessus-Dessous is of great long-term strategic value.

As an added value, it is a unique window on consumer trends and preferences, which in turn will help to create greater efficiencies in the Group. There is significant gain in distribution.
Highlights of 2018

**Acquisition of Dessus-Dessous S.A.S.**

In June 2018, the Group acquired the largest online retailer of lingerie and swimwear in France – Dessus-Dessous S.A.S. The company’s sales amounted to 7.3 million euros in 2018 and it employs 31 people. The acquisition marks the Group’s expansion to the online retail segment of the lingerie market and reinforces the ELG’s strategic commitment to building a truly vertically integrated business.

**Secured bond issue, Group refinancing and bond listing**

On 22 February 2018 the Parent issued new bonds in Sweden in the amount of EUR 40,000,000. The issued bonds are senior secured bonds with a maturity of 3 years. The bonds are listed on NASDAQ Stockholm Corporate Bond list since January 2, 2019.

**Product portfolio expansions**

In 2018, the Group introduced two new product lines to its lingerie ready garment collections portfolio: new Move activity collection by Conturelle, which is in distribution since October 2018, and a new swimwear collection by Felina for which sales commenced in the first quarter 2019. Additionally, in Autumn 2018, ELG launched a new Senselle by Felina brand, a fusion lingerie collection providing unprecedented fit and comfort of premium lingerie garments at great value. First three series of Senselle classical collection are available in retail and the full range will be available from the second quarter 2019. Senselle’s target markets are primarily Eastern European and CIS countries.

**Lauma Fabrics receives ISO certification**

In autumn 2018, Lauma Fabrics obtained a medical ISO certification for the medial textile products it also produces, marketed under Lauma Medical brand name. This is a recognition for ELG of being a trustworthy manufacturer in the medical textile industry and it will definitely help to open doors to new markets.

**Development of 50 gauge circular knitting technology**

In 2018, ELG invested into a new technology, 50 gauge circular knitting, whereby 2 machines were acquired this year and further 8-10 machines are planned for the next 1-2 years. The developed fabrics is a new type of fabrics for ELG group and has opened doors for new global customers.
Highlights of 2018

Acquisition of new stenter for Lauma Fabrics

In summer 2018, the Group committed to a new stenter’s acquisition for Lauma Fabrics. The cost of the acquisition is EUR 1.2 million and the stenter is expected to be delivered in spring 2019. The acquisition will allow the Group to improve the quality of its produced fabrics and to be able to offer new solutions of materials to its customers.

In-house production of spacer molded cups

In 2018, ELG bought the equipment to start the in-house production of spacer molded cups at Lauma Fabrics manufacturing plant in Liepaja, Latvia. This step is an important part of the production strategy, reinforcing the full vertical integration of the Group and offers new possibilities for growth. Premium lingerie producer Felina, an ELG company, will be one of the biggest clients for Lauma Fabrics spacer cups. Spacer cups are breathable cups with special chambers to offer maximum comfort, used in the production of fine lingerie.

Acquisition of Yustyna Ltd, a lingerie ready garment producer in Belarus

In January 2019, the Group announced the acquisition of OOO Yustyna (subsequently renamed to OOO Senselle), a lingerie ready garment producer in Belarus. The acquisition is part of the Group’s strategy to expand operations and add capacity for private label and ELG newest own brand Senselle by Felina production. The target is to produce all of Senselle in the Belarus unit, which is located close to the brand’s main markets, Eastern Europe and CIS countries.

Further developments of the Group

In 2018 the Group was doing quite a lot of strategic investments and market initiatives to respond faster to changes in market. One of these steps is product range expansion to position itself as a one-stop supplier of all relevant product segments.

Another important initiative is developing the online channel as e-commerce is the future of retail. The acquisition of Dessus-Dessous definitely offers the possibility to embrace a true omni-channel strategy. In 2019, the Group is preparing to launch a marketplace in the lingerie industry to facilitate the omni-channel strategy implementation as well as to further expand sales.

ELG will also continue to build and strengthen its international team.
Key findings of 2018

2018 was a transition year for ELG after the acquisition of Felina Group and Dessus-Dessous. The Group invested in new technology, new people and process changes. Furthermore, the Group started several strategy and market initiatives to respond faster to changes in the market. One of these steps is product range expansion to position ELG as a one-stop supplier of all relevant product segments.

The results of these changes start to gradually convert into sales, but the operating profit is still behind expectations due to investments of today’s profit in innovations and changes needed to sustain the business in the future and earn stable margins going forward.

2018 sales results for the Group were below expectations due to the continuing pace of closure of small specialized retail shops in Southern and Central Europe as well as the slowdown of the macroeconomy in the most European markets. Despite that the ongoing initiatives helped the Group to stop the negative trend of the first three quarters of 2018 and demonstrated the sales pick up in the fourth quarter of 2018.

The Group believes that this improving trend will continue in the coming periods, bringing additional revenue at accelerated speed throughout 2019, as the Group constantly feeds the pipeline with additional novelties, complementary products and other initiatives.

Although the market climate is not favorable and the sector is not growing, the Group is confident that the initiatives taken already will result in a growth and ELG continues to be a strong player in the market due to its financial stability and sustainable future. The Group believes that together with investments and focus on innovation the Group’s margin will stabilize. In 2019 sales are expected to come with a healthy growth, but unfortunately not all of it will transform into the profit due to the implementation of additional innovations and changes.
Financial highlights of 2018

Financial performance of the Group was analyzed on the basis of the pro forma financial information of European Lingerie Group AB for 12 months 2018 and 12 months 2017.

The Group’s sales amounted to EUR 77.2 million in 12 months 2018, representing a 2.9% decrease as compared to pro forma sales of 12 months 2017.

As part of the costs are fixed, decline in revenue caused drop of profitability margins. Normalised EBITDA in 12 months 2018 amounted to EUR 9.3 million and decreased by 28.9% compared to pro forma normalised EBITDA in 12 months 2017.

Normalised net profit in 12 months 2018 amounted to EUR 221 thousand, compared to pro forma normalised net profit of EUR 6.0 million in 12 months 2017.

Financial highlights of 2018

Normalised **EBITDA margin** in 12 months 2018 and 12 months 2017 was 12.0% and 16.4% respectively. EBITDA margin deteriorated mainly due to sales decrease and high impact of marginal sales contribution to EBITDA.

Furthermore, although the Group was able to stop the negative trend in sales, it still continues investing its current profit into several initiatives and new projects, which will allow it to sustain the revenue and expand into new sales channels, products and target customer segments in the future, but reduces operating profit margins in the short term.

Normalised **net profit margin** in 12 months 2018 and 12 months 2017 were 0.3% and 7.5% respectively.

Similarly to EBITDA, **lower profitability** was due to sales decrease and cost of new initiatives impact. In addition, there was an increase in finance costs in 12 months 2018 as compared to 12 months 2017 related to incremental costs on borrowings raised for the acquisitions of Felina Group and Dessus-Dessous SAS as well as for additional capital needed for future growth and investments that were not present to full extent in 12 months 2017.

Sales of 2018

The Group’s sales in its core markets in 12 months 2018 were 83.7% of its total sales against 83.5% in 12 months 2017.

The largest growth in sales in 12 months 2018 was in Poland and it was mainly achieved through expansion of the Group’s lingerie products’ presence in the retail channels in this country. Sales in Germany and Benelux increased by 1.6% and 1.9% respectively in 12 months 2018, which is a result of the stable economy and the Group’s strong position in these markets.

There was growth of sales in the Baltic countries in 12 months 2018 by 0.5%. Growth is explained by the stabilization of the market situation in Russia and other CIS countries, which are the major sales markets for the Baltic lingerie sewing companies.

In 12 months 2018, the sales in Spain reduced by 1.5%. The net deficit in Spain is heavily influenced by the overall change of the total retail concept in Southern and Central European countries. The Group actively addresses this issue.

France had a decrease in sales in 12 months 2018 by 4.5% also due to the same change in retail concept, but this deficit started reducing in Q4 2018. Markets in Russia and Ukraine dropped by 9.6% and 9.2% respectively in 12 months 2018, but the trend in Q4 2018 reversed completely compared to the first three quarters. Sales in Belarus dropped by 16.4% in 12 months 2018 and continued to be lower than before due to the change in the strategy of Group’s largest customer in the textile segment.
